## Professional Summary

DevOps & Release Engineer with 3 years of experience managing deployments and production support for Oracle FLEXCUBE Core Banking System in high-availability environments. Experienced in Linux-based deployments, WebLogic cluster administration, Kubernetes-supported rollouts, and end-to-end release orchestration. Strong expertise in production troubleshooting, root cause analysis, and deployment validation across mission-critical banking systems.

## Technical Skills

**DevOps & CI/CD:** Jenkins, Git, GitHub Actions, Release Orchestration

**Containerization:** Docker, Kubernetes (Deployments, Services, Scaling)

**Operating Systems:** Linux (Oracle Linux)

**Middleware:** Oracle WebLogic Server (Clustered & HA)

**Infrastructure:** Terraform (IaC concepts), Ansible (Configuration Management concepts)

**Cloud:** AWS (EC2, S3, IAM)

**Database:** SQL, Shell Scripting, Python

## Professional Experience

### Oracle Financial Services Software (OFSS)

Jun 2023 – Present

*Associate Consultant – DevOps & Release Engineer*

- Managed deployment and release activities for Oracle FLEXCUBE Core Banking System across multiple banking clients.
- Executed go-live and post-production releases in high-availability clustered WebLogic environments.
- Supported Kubernetes and traditional deployments ensuring stable rollouts.
- Conducted Root Cause Analysis (RCA) through detailed log inspection across Java and PL/SQL layers.
- Implemented rollback strategies to minimize downtime during banking releases.

### Zinier Technologies

Nov 2022 – Jun 2023

*Intern – DevOps & Engineering*

- Participated in sprint-based release cycles within Agile environment.
- Contributed to CI-driven build workflows ensuring stable deployments.
- Executed deployment readiness checks prior to feature rollouts.

## Education

### B.Tech – Electronics & Telecommunications

MIT Academy of Engineering

CGPA: 9.11/10

## Certifications

Microsoft Certified: Azure Fundamentals
